Managing Projects, Assignments and Tasks in a Crazy-Busy World

Technology makes everything faster. Change seems to be the only constant. Individuals and teams have to do more with less.

The **Art of Execution** will help you navigate effectively through today's whirlwind to consistently get things done, through and with people regardless of explicit or implicit authority.

The core of the program is focused on four benefits:

- 1. Clarify the Win:** Highly effective organizations, teams and individuals stay laser-focused on who their customers are, and how everyone wins from the products and/or services they provide.
- 2. Identify the Milestones:** Being clear on the timeline, the key players and anticipating different outcomes are of paramount importance to ensure projects, assignments and tasks are completed on time and on budget.
- 3. Dealing with the Difficult:** Roadblocks can stifle a project or key strategic initiative. Effective project management attempts to foresee any such issues and proactively solve them.
- 4. Staying Focused:** Effective project management focuses on the few vitals that must be done this week to keep on track.

Participants are encouraged to bring real-world projects, assignments and tasks to identify, discuss and find practical solutions during the seminar.
